ABOUT US

The first commandment of the Al-Quran is 'Read'. You can learn by reading and you can teach by learning. Learning and teaching are both education.

Education is the backbone of the nation. And teachers are the artisans of nation building. Better education guarantees the building of a better nation. And moral education gives any nation the status of an honest, civilized and refined nation. Taibah Academy offers a wide range of academic courses and teachers training programs with the intention of opening up multi-faceted learning opportunities for teachers and students.

Taibah Academy is an open E-learning platform for acquiring Islamic education and knowledge in Bengali language. Apart from classical Islamic education, various courses on study, research and language skills are offered and more courses will be offered periodically inshaAllah. It has 'Arabic Corner' for learning Arabic language. And there is provision for teachers, Da'i Ilallah, Imams and Khateebis to participate in training courses to improve their teaching skills. Skilled and experienced senior teachers of university and madrasah level are the trainers of these courses.

Each course has full video lectures with enriched class notes. Anyone who registers using the course content can gain clear knowledge about the respective subject. There are enough live classes to answer various questions of the students. A certificate is awarded on successful completion of the course by participating in class tests, assignments and final exams.

Our Vision

- Producing competent human resources enlightened with divine knowledge and morality.

Our Mission

- To promote authentic knowledge of the Quran and Sunnah to resolve contemporary challenges of our daily lives.
- To build productive citizens with enhanced personal, social and professional skills.

FOUNDER'S SPEECH

"Read in the name of your Lord, who created" – this was the first revelation from Allah (SWT) for mankind and this verse clearly indicates the significance of gaining knowledge in Islam. Thus acquiring knowledge is the most important duty and obligation for every Muslim. Knowledge is the only tool that can enlighten a person, a society, a country and the entire Universe.

Recognizing that upfront, Taibah Academy started its journey on January 01, 2018 as an open source platform for knowledge creation and distribution. Today Taibah Academy is a trusted platform for many people around the world. Every day, Bengali-speaking people from different parts of the globe are sourcing authentic knowledge from our platform – it's a matter of great pride and joy for us.

Dr. Mohammad Monzur E Elahi
Founder, Taibah Academy

In today's world, knowledge-based online platforms are no way less significant than physical platforms. Rather online platforms have been proven as a more convenient option for millions of people. Realizing that need, Taibah Academy has been offering online courses since the beginning.

Taibah Academy offers basic Islamic courses, personal and professional development courses, family life and parenting courses, research and skill-based courses and so on. Besides, this academy conducts training and workshops for teachers of different educational institutions on regular basis. Taibah Academy has got a big pool of scholars, academicians, industry-specific experts and researchers. They have been offering need-based courses from Taibah Academy to resolve contemporary challenges of modern times. This is how Taibah Academy is trying to make positive footprints for the society and the country.

October 09, 2022 is a historical day for Taibah Academy for many reasons. Firstly, this is the first time that online students of our academy is getting the opportunity to meet and greet with their teachers directly. Secondly, this is the first-ever all batches get-together event of Taibah Academy. Thirdly, this day also marks the unveiling of few newly published books from Taibah Academy.

I do appreciate everyone's effort, participation and contribution behind this event and publication of this souvenir.

May Allah allow Taibah Academy to put significant contribution towards this Ummah.

WHAT OUR STUDENTS SAY

“Alhamdulillah, finally I got to know about Taibah Academy, and found the course Diploma in Islamic Studies. The syllabus in semester 1 and 2 are having 14 courses, that actually covers just about everything that we need to know about Islam as a Muslim.”

Abdullah Mohammad Saleh
COO, Shepherds

“Alhamdulillah, the best in Bangladesh. I can guarantee that the Diploma course is a very well designed one. The courses selected are the best choices according to me; and the news from the inside is, the materials that you will receive, will be your lifetime collection. I am most amazed by the dedication of the team in preparing the modules and notes.”
